SUBJECT: Submission of report on Industrial Visit at KLJ Plasticizer Ltd. Sili, D.&N.H. REFERENCE: Order No. EDN/APJAKGC/Dept./Chem/2021/619/3582 Date:16.12.2022

Respected Sir,

With respect to the subject and reference cited above, I am herewith submitting the report on Industrial Visit at KLJ Plasticizer Ltd., Sili, D.&N.H. organized on 16th and 17th December, 2022 for Final Year (TY) students of Chemistry Department. Soft copy of report is already e-mailed on official e-mail address of the college.

Thanking You

Yours Sincerely

Dr. Himanshu D. Patel

Report on Industrial Visit at KLJ Plasticizer Ltd. Sili, D.&N.H.

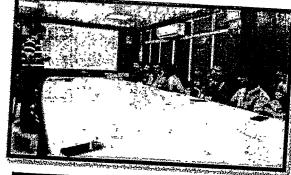

The Department of Chemistry organized an industrial visit for final year students of B.Sc. (Chemistry) at KLJ Plasticizer Ltd. Sili, D.&N.H. in two batches on 16th December and 17th December 2022 from 12:30 PM onwards. In these two days, a total of 36 students and four faculty members (Dr. Himanshu D. Patel, Dr. Sony Amrendra, Dr. Rama Mittal and Dr. Sureshkumar L. Chavda) of the department have taken part in the visit.

After the initial entry pass formalities at the gate of the KLJ Plasticizers unit, at Sili, faculty members and students were greeted and guided by Dr. Vrajesh Aghera, Manger, QC and R&D department. Sir guided the team to the conference hall where the students were shown a short video about KLJ group of industries. Video gives an idea about different products including plasticizers, esters and further expansion to Real Estate fields also. The video also focused on Shri Kanhaiya Lal Jain, the Founder of KLJ Industries, their team and the motto of KLJ group.

After a short video at the conference hall Dr. Vrajesh has taken students to the R&D laboratory where he shows various ongoing pilot preparation of various esters (plasticizer) from different alcohol and acids. Dr. Vrajesh explain the utility and application of all the apparatus like round bottom flask (RBF), condenser, heating mantle etc. used in pilot scale preparation. Sir, also explain how unused alcohol and water are produced during preparation in reused. Students have asked many queries regarding the preparation of plasticizers.

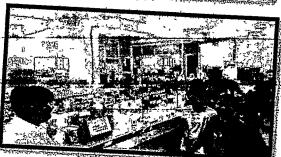

Afterwards, students visited the QC laboratory where Mr. Mehta give information about which kind of samples are analyzed in the laboratory and the instrumentation facility available in the laboratory. Mr. Mehta demonstrated and explain the working of Karl Fisher Moisture determination and Auto titration. Further, students were also taken to the Chromatography room, where students were demonstrated about working and application of Gas-Liquid chromatography (GLC) to assess the purity of the product. Students were nicely detailed about packed and capillary columns used in GLS. Students, also learn about Flame Ionization and Thermal Conductivity Detectors. Mr. Mehta gives a detailed explanation of carrier gas used in GLC and explain color coding used for the gas inlet. In QC laboratory students were able to understand the working and application of the Tintometer which is used for checking of transparency of the final product.
